DUNELAND FAMILY YMCA ANNOUNCES STRATEGIC TRAINING PARTNERSHIP

CHESTERTON, IN – The Duneland Family YMCA announced a strategic training partnership with Challenger Sports. Challenger is the leader in youth soccer coaching in both the USA and Canada, and their partnership with Duneland Family YMCA reflects a commitment to focusing on the development of its players.

Challenger Sports - British Soccer Camps has become the most popular soccer camp in North America. The company has done this by providing a unique soccer experience that combines high quality instruction, games and competitive play along with engaging camp activities that share the passion, tradition and culture of the country that invented the sport.

Duneland Family YMCA players will get their first chance to meet the Challenger coaches at this summer's camp starting the week of July 13th. The camp will run Monday – Friday and there will be different sessions throughout the day for players between the ages of 3-16yrs.

We strongly suggest player participation in the British Soccer Camp. In addition, players will receive a whole assortment of soccer items such as a soccer jersey, soccer ball, and camp T-shirt. For more information and photos of the mentioned items, please go to www.challengersports.com.

Kym Groceman, Executive Director of the Duneland Family YMCA says, “We look forward to seeing our players on the fields this summer as well as in the fall during the next season’s play.” She continues, “This step we have taken is part of a larger push to advance our program and our players, and we urge everyone in the Duneland community to be involved and continue their support of our young player’s love for the game.”
